

## Important Precautions

### Correct use of the device:

- Do not stare directly into the projector lens or have it facing you as the light may be harmful to your eyes.
- Do not block the device's air inlet/outlet to avoid heat dissipation failure and damaging the internal electronic components.
- Do not wipe the lens directly with cleaning paper, cloths, etc., to avoid damaging the lens. Please use a lens/air blower to remove dust from the lens properly.
- Do not wash the device with cleaning chemicals, detergents, or any other liquid to prevent the circuit board from corroding. Avoid exposing the device to rainwater, moisture, and mineral-containing liquids.
- Keep the device, its components, and accessories out of the reach of children.
- Make sure that the device is used in a dry and ventilated environment.
- Do not store the device in overheated or overcooled places, because extreme temperatures will shorten the life of electronic devices. Place and use the device in an environment of 0°C-40°C.
- Do not put the device into any heating equipment (such as dryer and microwave oven) for drying.
- Do not firmly extrude the device or place barriers on it or its back to avoid damage to the device.
- Do not throw, strike, or sharply vibrate the device to avoid damage to the internal circuit board.
- Do not try to disassemble and assemble the device yourself. If any issue occurs, please contact the after-sales service of XGIMI.
- Do not repair any product on your own. If the device or any component cannot work properly, consult the after-sales service of XGIMI in a timely manner or return it to the factory for repair.
- Use careful with the earphone maybe excessive sound pressure from earphones and headphones can cause hearing loss.
- As with any bright source, do not stare into the direct beam, RG2 IEC 62471-5:2015.

## FCC warning

The device meets provisions of part 15 of FCC rule. Operation meets the following 2 conditions: (1) the device will not cause harmful interference, and (2) the device must accept any interference received, including interference that may result in accidental operations. User manual or operating instructions shall remind users that intentional or unintentional modification and replacement of radiators without explicit approval from the responsible compliance party may prevent the user from operating the device. If the manual is provided in a form other than paper, such as, provided in computer disk through the Internet, then the information required in the section can be included in the manual in the alternative form under the premise that users can have access to the form information.

For B-class digital or peripheral device, instructions provided by users shall include the following or similar statements and put them in a prominent place of manual text:

Notes: the device has been tested to meet restrictions of part 15 of FCC rule on B-class digital device. These restrictions are aimed at providing the effective prevention of harmful interference in a residential installation. If installation and use are not made according to the instructions, the device will generate and radiate radio frequency energy, and may cause harmful interference to radio communication. However, there is no guarantee that interference will not occur in a particular installation. If the device does cause harmful interference to radio or television reception (determined by stopping and starting the device), it is suggested that users should attempt to correct the interference by one or more of the following measures:

- Reposition direction of receiving antenna.
- Increase the distance between the device and the receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected..
- Consult distributors or experienced radio/television technicians to seek help
- This device is acting as a slave and operating in the 2.4 GHz (2402-2480 MHz, 2412-2462 MHz) band or 5 GHz (5.180 GHz-5.240 GHz, 5.260 GHz-5.320 GHz, 5.500 GHz-5.700 GHz, 5.745 GHz-5.825 GHz) band.

## IC Warning

This device complies with Industry Canada Licence-exempt RSS standard(s). Operation is subject to the following two conditions:  
(1) This device may not cause interference, and  
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

IC: 27045-WM03A

WARNING: Please refer the information on exterior bottom enclosure for electrical and safety information before installing or operating the apparatus.

**Warning for remote controller or portal device only**

**CAUTION:**

1. Risk of explosion if the battery is replaced by an incorrect type;
2. Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion;
3. Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas;
4. A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

**CE Maintenance**

1. The product shall only be connected to a USB interface of version USB2.0.
2. Adapter shall be installed near the equipment and shall be easily accessible.
3. EUT Operating temperature range: -10°C-40°C.
4. Adapter:
  - The plug considered as disconnect device of adapter
  - Power supply and ADP (rating):
  - Input: AC 100V-240V, 50/60Hz, 1.5A
  - Output: DC 19.0V, 4.74A
5. The device complies with RF specifications when the device is used at a distance of 20 cm away from your body.
6. To prevent possible damage to hearing, do not listen at high volume levels for long periods.

**Declaration of Conformity**

Chengdu XGIMI Technology Co., Ltd hereby declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

This product is allowed to be used in some of EU member states. For example, the device can be used in the following Member States:

<b>CE</b> 			
BE	EL	LT	PT
BG	ES	LU	RO
CZ	FR	HU	SI
DK	HR	MT	SK
DE	IT	NL	FI
EE	CY	AT	SE
IE	LV	PL	UK

Operations in the 5.15-5.25 GHz band are restricted to indoor usage only.  
 This Frequency applies to the following Member States or the geographical area within a Member State where restrictions on putting into service or requirements for authorisation of use exist.

## Radiation Exposure Statement

For remote control, this device complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment.

The transmitter shall not be placed or operated in conjunction with any other antenna or transmitter.

For the LED projector, the device meets FCC and IC radiation exposure limits specified for uncontrolled environments. In the installation and operation of the device, the distance between radiator and body should be at least 20 cm.

Notes: 5150-5250 MHz frequency range is only for indoor use.

This Frequency applies to the following Member States or the geographical area within a Member State where restrictions on putting into service or requirements for authorisation of use exist.

		
BE	HR	AT
BG	IT	PL
CZ	CY	PT
DK	LV	RO
DE	LT	SI
EE	LU	SK
IE	HU	FI
EL	MT	SE
ES	NL	UK
FR		

## Disposal instructions for used products:

The product is designed and manufactured with high quality materials and components that are recyclable.

This symbol on the product indicates that it is protected under the Directive 2012/19/EU.

- \* Only use attachments/accessories specified or provided by the manufacturer (such as the exclusive supply adapter etc).
- \* Beware that this product may emit harmful light radiation.
