This compact speaker can be used both as a surround system for big rooms or as screen system for medium sized ones. Its narrow depth allows it to be embedded inside the wall to achieve a better looking result. This model's performance, together with its state-of-the-art European components for both bass and treble that deliver a linear response up to 20Kz, make it a superb In Wall system of the Aurea family. It features a high resistance polyurea coating. There is an option of metallic coverings or fabric grills painted in the customer color choice.
