

GARDEN ARRAY

GA4 SATELLITE, GA10 SUBWOOFER

GARDEN ARRAY

GA4 SATELLITE, GA10 SUBWOOFER

The Triad Garden Array is a family of premium, all-weather landscape speakers that are the perfect combination of elegance, sound, and durability. This family includes the unique GA4 Satellite speakers and powerful GA10 Subwoofer, which are designed to be placed throughout flowerbeds or around the yard to blanket outdoor spaces with rich, beautiful audio. Triad Garden Array speakers are completely scalable for every outdoor listening experience, from courtyards and patios to entire residential estates.

The Triad GA4 Satellite speaker is built around a unique, Ultra-Broad Dispersion (UBD) driver that provides superior sound coverage using fewer speakers. GA4 Sats deliver a 150-degree listening area that is over 50% wider than traditional landscape speakers, allowing for broader speaker placement without compromising sound quality.

The GA10 Subwoofer is designed for both above- and below-ground installations, so the bass can be located exactly where you want it—on the patio or deck, or buried near a pool, gazebo, or pergola. Kits are available for either type of installation.

FEATURES

- Compact size, designer friendly
- Built for all weather conditions

GA4 SATELLITE

- IP65 all-weather enclosure and design
- Custom UBD™ (Ultra Broad Dispersion) driver provides consistent 150-degree-wide dispersion and total coverage without beaming or hot spotting
- The 4.5" UBD™ driver allows you to locate sats 10 - 15' (3 - 4.5 m) apart
- Compatible with 8 ohm or 70/100V systems
- Wall mounts sold separately; ground stakes included (adjustable mounting poles up to 18")

GA10 SUBWOOFER

- IP57 all-weather enclosure and design
- Requires Triad RackAmp 300
- 10" long-throw, weather-resistant, composite woofer
- Mount above or below ground with Garden Array Foot or Underground kits (sold separately)
- Maximum power handling - 300 watts
